REASON TO USE 05.

WHY WE HAVE TO USE ANTHROPOMETRIC CHAIR ?

1. Increase The accuracy and comfort in making a product.

2. Time efficiency when we do a measurement.

3. The optimization of human resources, because it only needed two-person in measurements.

4. Minimize product manufacturing errors due to inaccuracies in manual measurement data.

ADVANTAGES 06.

BEST QUALITY PRODUCTS

BEST QUALITY RAW MATERIAL

REASONABLE PRICE

EFFECTIVE & EFFICIENT

WARRANTY

EASY TO OPERATE

SAFE PACKAGING

FRIENDLY TRAINER
